Well I'm gonna take my random drive to Flouissant. Need to understand the Black race better so I stop calling Blacks Niggers and Start calling them People. Like dad always said you cant fear or hate an entire race cause of what one man did 40 yrs ago.

4 pm

Omfg it was crazy I dont even know where I was I ask Q.T. guy for directions but went wrong way I just wanted to take drive I ended up in Some Apartment Complex & asked directions again. Real nice kid my wife beater he had no idea he asked guy in green shirt & Jeans that guy was really sweet. Then I heard a weird noise caught my attention this cop was barking no sounds

I couldn't hear but they was some
Kids I almost hit with car. A
big one & a Skinny one. The Cop
tried getting out & the big one hit
the door the cop looked pissed &
tried opening door again. The big
kid hit the door with his gut & the
little one punched the mirror. Someth
ing fell on the ground. ~~He was~~
The big one is half in the window/door
cant remember I swear the little
one had the cops leg. I heard a
noise not sure what the guy in the
green shirt was yelling Stop. The big
kid pulled his pants up they was
tan shorts & he started running
the Skinny one took off in opp direct
the cop got out left hand on face
Right hand on gun. The cop Scream
but I could not understand. Every
one was Screaming. I heard lay-
up stupid ass down I think it
was a lady next to me. The cop
was walking the big kid turned

around had his arms out with attitude. The cop just stood there dang if that kid didn't start running right at the cop like a football player head down. I heard 3 bangs but the big kid wouldn't stop. I heard cop say something but not sure what or if he was just making noise. Cop took a couple steps forward then backwards and the gun went off 2 more times. The last one on the top of the kids head. Omg the blood. The green shirt man grabbed my arm and said get your ass out of here. I got in car & drove into neighborhood. Some how I went through parking lot across the street & back to main rd not sure how long but police were every place with police taps. There was other cops there I seen one pull his gun but he didn't fire. Don't even remember when he got there. There was only in parking lot at QT I just pulled

up and asked for the close highway.
She points + I left. Then to top
Shot off I got on highway going the
wrong way. Had to ask for direction
again. Real nice old man helped
me out. Home now no calls so
not sure what's on Dena.
